✓Ellsworth, Whitney, Sheldon Moldoff, Carmine Infantino, & Joe Giella. 2014. **Batman. The Silver Age Newspaper Comics. Volume 1: 1966-1967**. The Library of American Comics. IDW Publishing, San Diego,

CA, and DC Comics, Burbank, CA. ISBN-13: 9781613778456 (hardbound). An incredible 277-page reprint of all Batman comic strips from 1996-1967. Poison Ivy first appeared in two comic books, Batman, Volume 1, #181 (June 1966), and #183 (August 1966). On the inside front jacket cover of this book, Poison Ivy is mentioned in a single panel dated "12/24", from the strip printed in full on page 106. Her first appearance in a comic strip was December 10, 1966, on page 102 in the last panel of the previous storyline, as a preview to upcoming adventures. Her story appears on pages 103-142 (the panel atop page 140 is especially good). The storyline is explained on page 270, as The Sizzling Saga of Poison Ivy, December 12, 1966 – March 17, 1967. The cover of Batman, Volume 1, #181 is also reprinted there. When Poison Ivy, masquerading as an innocent young woman, meets Batman, she introduces herself as Laurel Lee (a side panel narrative tells us her real name is Ivy Smith; see January 20, 1967, on page 118). The storyline reveals her accomplices, three beautiful women called the Ivy Leaguers: Veronica Vassar, Nancy Radcliffe, and Betsy Barnard. She also has a rough-looking henchman named Blue-Jaw McGook and a handful of paid unnamed male thugs. Batman seems to be under Poison Ivy's spell, which worries Robin. The duo attend a swanky party at the newly opened Batman Hilton Hotel. When the lights suddenly go out, the girls steal jewelry from the guests and flee, Batman and Robin pursue, and eventually catch them. Poison Ivy also appears in The Batman Cast printed in full color on the outside back cover. The legend to the cast members is printed just before the book's final endpaper; Poison Ivy is outline #10.

✓ Greenberger, Robert. 2008. **The Essential Batman Encyclopedia.** Del Rey, NY. ISBN-13: 9780385364508 (hardbound). In encyclopedia format, it provides excellent synopses of characters in the DC Comics' Batman Universe. Pamela Isley is mentioned on pages 138-139 within the entry for Floronic Man. In the storyline, Jason Woodrue (Floronic Man) was her university botany professor. He persuaded Pamela into stealing Egyptian herbs and concocted a toxin from them, which he fed to her. Instead of killing her, she became immune to it and all other toxins. She later became Poison Ivy, committed crimes, and was sent to Arkham Asylum. Jason broke her out in order to use her DNA to create a "child". She disliked his plans and worked with Batman to capture him. Pamela Isley is also mentioned on page 177 within the entry for Harley Quinn. Poison Ivy found a crashed rocket with an injured Harley Quinn inside. After rescuing and treating Harley, Poison Ivy made her immune to toxins and the two became close friends. Pamela Isley has a very short entry on page 190. A black and white cropped version of the cover art by Brian Bolland (from Batman: Gotham Knights #15, May 2001) is on page 191. Poison Ivy is also mentioned on page 276 within the entry for No Man's Land. When Gotham City is devastated, criminals carve up portions as their own territory; Poison Ivy selects Robinson Park. Between pages 276-277 are full-color reproductions of covers and various art that includes Poison Ivy. Poison Ivy has a lengthy entry on pages 295-297. A black and white version of the cover for Batman, Volume 1, #181, June 1966, is on page 296.
